

ASCILIN RAJ

SOFTWARE ENGINEER

ascilinraj@gmail.com | +91 7845046180 | [LinkedIn](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in Python Full Stack Development, React.js, and Django development. Skilled in building responsive web applications, integrating MySQL and MongoDB databases. Driven to build clean, maintainable, and scalable applications that solve real-world problems.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6)

Frontend: React.js, HTML5, CSS3

Backend: Django

Databases: MySQL, MongoDB (Basic)

Tools & Platforms: Git, GitHub, VS Code, Figma

Concepts: Responsive Web Design

EXPERIENCE & PROJECTS

CodeWild Tech

2025 – Mar 2026

Technologies: Python, Django, React.js, JavaScript, HTML5, CSS3, MySQL

- Developed full-stack web applications using Python, Django, React.js, and modern frontend technologies.
- Contributed to the development of FoodSwap, a web platform connecting users with regional home-cooked food providers.
- Built responsive React.js components and integrated Django backend services to support core application workflows.
- Integrated MySQL databases to enable seamless frontend-backend communication.
- Collaborated on feature development, debugging, testing, and source code management using Git.

Workcohol Solutions Pvt. Ltd.

2025

Technologies: Python, Django, HTML5, CSS3, JavaScript

- Contributed to the development of the Mentorship Booking Platform, a web application for scheduling mentorship sessions.
- Developed frontend and backend modules to support mentor booking and user interactions.
- Assisted in debugging, testing, and implementing responsive user interface components.
- Collaborated with the development team to enhance application functionality and improve user experience.

AI-Based Skin Cancer Detection using Deep Learning

Dec 2024 – Feb 2025

Academic Project

Technologies: Python, TensorFlow, CNN, Transfer Learning

- Developed a deep learning model for skin cancer classification using dermoscopic images.
- Applied Convolutional Neural Networks (CNNs) and transfer learning techniques to improve image classification performance.
- Built the solution as an academic project focused on assisting early-stage skin cancer detection.

COURSE

Keltron, Trivandrum — Web Application Development Training (2025)

- Gained hands-on exposure to full-stack web development and database integration.

TestLeaf, Chennai — Gen AI (Sep 2026 – Dec 2026)

- Gaining practical exposure to Generative AI concepts, prompt engineering, LLMs, and AI application workflows.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science and Engineering

Aug 2021 – May 2025

Karunya Institute of Technology and Sciences, Coimbatore

Higher Secondary Certificate (HSC)

Jun 2020 – Mar 2021

St. Michael Matric Higher Secondary School

CERTIFICATION

- Python Programming Fundamentals — Cisco Networking Academy
- Python Programming & MongoDB Basics — Infosys Springboard
- NPTEL Certifications-- Data Mining, Internet of Things (IoT)
