

NARESH VIJAYABALAN
GENERATIVE AI DEVELOPER

Chennai | +91 7418570790 | nareshvijayabalan06@gmail.com | linkedin.com/in/nareshvijayabalan | github.com/naresh-006

PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with a strong foundation in cloud computing, DevOps, and Generative AI. Currently building hands-on knowledge of Large Language Models (LLMs), LLM architectures, prompt engineering, Retrieval-Augmented Generation (RAG), embeddings, and semantic search. Gained hands-on experience through academic projects involving AWS, Terraform, Kubernetes, CI/CD, Linux, and cloud-native infrastructure. Aspiring to build practical AI-powered and cloud-based solutions by combining GenAI, cloud, and DevOps technologies.

TECHNICAL SKILLS

Languages & Data: Java, SQL, Linux

AI / LLM: Generative AI, Large Language Models (LLMs), LLM Architectures, Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search

Cloud & DevOps: AWS, Oracle Cloud Infrastructure (OCI), Kubernetes, Docker, Jenkins, Terraform, Ansible, CI/CD

Tools & Monitoring: Prometheus, Grafana

Practices: Infrastructure as Code (IaC), Cloud Deployment, Automation, AI Workflow Fundamentals

INTERNSHIP

Generative AI Developer Intern

- Built and shipped 2 production LLM applications (Resume Screening Assistant, Intelligent PDF Q&A System) using Python, RAG, and prompt engineering, reducing manual document review effort by 40%.
- Designed end-to-end AI workflows spanning document ingestion, chunking, vector embeddings, and semantic retrieval, improving relevant-result retrieval accuracy to ~90% on internal test queries.
- Integrated REST APIs, Langflow, and MongoDB to automate AI pipelines, cutting manual pipeline configuration time by 30% and enabling reuse across 2+ projects.
- Collaborated cross-functionally with a 6-member engineering team to deliver features on sprint deadlines, using DeepEval to benchmark and validate LLM output quality, reducing post-release defects by 20%.

PROJECTS

AI Resume Screening Assistant

- Engineered a RAG-based resume screening assistant that ingests and indexes candidate resumes in a MongoDB vector store, cutting recruiter search time from manual review to seconds per query.
- Implemented semantic search over embedded resume data, surfacing top-matching candidates for recruiter queries with 85–90% relevance accuracy.
- Automated the ingestion-to-retrieval pipeline end-to-end using Python, LLMs, Langflow, MongoDB, and REST APIs, eliminating manual resume sorting and saving an estimated 5+ hours per week of recruiter effort.

Strong Network Infrastructure in AWS

- Designed and configured an AWS VPC with public and private subnets to establish a structured and secure cloud network environment. Deployed application servers within private subnets, separating them from publicly accessible resources to strengthen network isolation and reduce direct exposure.
- Implemented subnet-based architecture to improve infrastructure security and resilience while supporting reliable application deployment in the AWS environment.

AWS Terraform Project — Automated Infrastructure as Code

- Automated AWS infrastructure provisioning using Terraform, creating a structured and repeatable cloud environment with a fault-tolerant VPC and secure private subnets. Configured an Application Load Balancer (ALB) to manage incoming application traffic and improve the distribution of requests across the infrastructure.
- Configured an S3 backend for securely storing Terraform state, improving state management and supporting consistent infrastructure deployments.
- Used Infrastructure as Code (IaC) principles to reduce manual configuration and make AWS infrastructure setup more repeatable and manageable.

EDUCATION

B.Tech, Information Technology — Panimalar Engineering College 2022 – 2026 | 8cgpa

Higher Secondary — Sri Ramakrishna Vidhyala Gurukulam | 82%

CERTIFICATIONS

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional — Jul 2024
- Cloud Computing — TCS iON | Overall Scale: A (80%)
- Data Analytics — Accenture | Overall: 87%
- User Experience / Digital Skills — Accenture | Overall: 92%

LANGUAGES

English — Professional Working Proficiency | Tamil — Full Professional Proficiency
