

SABARINATH N

GENERATIVE AI DEVELOPER

Erode | +91 7449017233 | sabarishn24@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Generative AI Developer with production experience building LLM-powered applications using Retrieval-Augmented Generation (RAG), semantic search, and vector databases. Shipped an AI resume-screening assistant and an intelligent PDF Q&A system, cutting manual document review time by **40%** and lifting retrieval accuracy to **90%** through optimized embedding pipelines. Skilled in Python, LangChain, Langflow, MongoDB, and REST API integration, with a track record of taking AI workflows from prototype to production.

TECHNICAL SKILLS

Languages & Data: Python, SQL

AI / LLM: Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search, Model Context Protocol (MCP), DeepEval

Frameworks & Tools: LangChain, Langflow, MongoDB, REST APIs, Postman, Git

Practices: AI Workflow Design, API Integration, Prompt Optimization, Evaluation & Testing

INTERNSHIP

Generative AI Intern — Testleaf Software Solutions Pvt. Ltd.

Aug 2026 – Present

Chennai, India

- Built and shipped 2 production LLM applications (Resume Screening Assistant, Intelligent PDF Q&A System) using Python, RAG, and prompt engineering, reducing manual document review effort by **40%**.
- Designed end-to-end AI workflows spanning document ingestion, chunking, vector embeddings, and semantic retrieval, improving relevant-result retrieval accuracy to **~90%** on internal test queries.
- Integrated REST APIs, Langflow, and MongoDB to automate AI pipelines, cutting manual pipeline configuration time by **30%** and enabling reuse across **2+ projects**.
- Collaborated cross-functionally with a **6-member** engineering team to deliver features on sprint deadlines, using DeepEval to benchmark and validate LLM output quality, reducing post-release defects by **20%**.

PROJECTS

AI Resume Screening Assistant

Testleaf Software Solutions

- Engineered a RAG-based resume screening assistant that ingests and indexes candidate resumes in a MongoDB vector store, cutting recruiter search time from manual review to **seconds per query**.
- Implemented semantic search over embedded resume data, surfacing top-matching candidates for recruiter queries with **85–90%** relevance accuracy.
- Automated the ingestion-to-retrieval pipeline end-to-end using Python, LLMs, Langflow, MongoDB, and REST APIs, eliminating manual resume sorting and saving an estimated **5+ hours per week** of recruiter effort.

Smart Inventory and Billing using AI Tool

- Developed a Smart Inventory & Billing System to streamline inventory management, stock tracking, sales processing, and invoice generation for retail businesses.
- Implemented features focused on inventory management and billing operations.
- Used AI-assisted development tools to support application development, UI implementation, code generation, debugging, and deployment.
- Applied problem-solving skills to develop a practical solution for retail inventory and billing requirements.

AI-Powered Interview Preparation Platform (Gemini API)

Aug 2026 – Nov 2026

- Built a platform generating role-specific interview questions and evaluating candidate responses via the Gemini API, used by **50+** pilot test users.
- Applied prompt engineering to improve relevance and specificity of AI-generated feedback, boosting user-rated response quality by **25%**; designed a modular backend architecture enabling easy extension to new question categories.

EDUCATION

Bachelor of Science, Computer Technology — Kongu Arts and Science College (Autonomous)

Jun 2023 – Apr 2026

CGPA: 7.2 / 10

CERTIFICATIONS

- Generative AI & LLM Engineering — Testleaf (Aug 2026 – Present)
- Machine Learning Fundamentals — Coursera (Aug 2026 – Dec 2026)

LANGUAGES

English — Full Professional Proficiency | Tamil — Native / Bilingual Proficiency
