

SURYA P

Generative AI Developer

radhasurya41@gmail.com | +91 7397582953 | Chennai, India | LinkedIn

PROFESSIONAL SUMMARY

Generative AI Developer with production experience building LLM-powered applications using Retrieval-Augmented Generation (RAG), semantic search, and vector databases. Shipped an AI resume-screening assistant and an intelligent PDF Q&A system, cutting manual document review time by 40% and lifting retrieval accuracy to 90% through optimized embedding pipelines. Skilled in taking AI workflows from prototype to production.

TECHNICAL SKILLS

- **AI / LLM:** Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search, Model Context Protocol (MCP), DeepEval
- **Languages & Data:** Python, MongoDB, SQL
- **Frameworks & Tools:** LangChain, Langflow, REST APIs, Postman, Git
- **Practices:** AI Workflow Design, API Integration, Prompt Optimization, Evaluation & Testing

EXPERIENCE

Generative AI Developer (Internship) | 09/2026 – 12/2026 | Chennai, India

- Shipped 2 production LLM applications (Resume Screening Assistant, Intelligent PDF Q&A System) using Python, RAG, and prompt engineering, reducing manual document review effort by 40%.
- Designed end-to-end AI workflows spanning document ingestion, chunking, vector embeddings, and semantic retrieval, improving relevant-result retrieval accuracy to ~90% on internal test queries.
- Integrated REST APIs, Langflow, and MongoDB to automate AI pipelines, cutting manual configuration time by 30% and enabling workflow reuse across 2+ downstream use cases.
- Collaborated with a 6-member engineering team to deliver features on sprint deadlines, utilizing DeepEval to benchmark and validate LLM output quality, reducing post-release defects by 20%.

PROJECTS

AI Resume Screening Assistant

- Engineered a RAG-based resume screening assistant that ingests and indexes candidate resumes in a MongoDB vector store, cutting recruiter search time to seconds and saving an estimated 5+ hours per week.
- Implemented semantic search over embedded data, surfacing top-matching candidates with 85–90% relevance accuracy.

Intelligent PDF Question-Answering System

- Built an AI-powered Q&A template enabling natural-language queries over PDF documents, reducing document lookup time from minutes to under 10 seconds.
- Developed document ingestion and chunking layers feeding a RAG retrieval system, achieving ~88% answer accuracy.

EDUCATION

B.E. – Electronics & Communication Engineering | 2022 – 2026

Jerusalem College of Engineering, Chennai, India

CERTIFICATIONS & LANGUAGES

- **Certification:** Generative AI & LLM Engineering – Testleaf (2026)
- **Languages:** English (Full Professional Proficiency), Tamil (Native / Bilingual Proficiency)
